

And to complete the ensemble.....
WINHMS ENTERPRISE (ERP)

Catering to the
needs of
hospitality

Enhance Customer Service...

Recipe for Profit

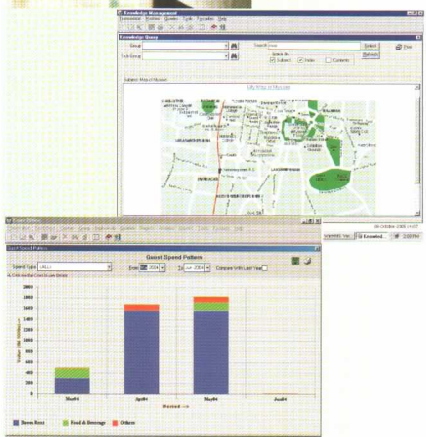

WINHMS Food and Beverage Costing is the property's recipe for profits by aiding the kitchen staff in recipe creation and ingredient costing. Controllers can monitor inventory flow, recommend ingredients and alter menu items by studying volumes and profitability. Banquet pre-costing option available for competitive marketing. Cost analyses help improve profitability and regulate overheads.

Engineering

WINHMS Engineering allows preventive maintenance schedules for rooms, venues, machines, buildings and helps execute orders in time. Work Order generation can be made based on Guest Requests or Internal Work Requests. Permits assignment of labour, tracks material cost for each Work Order and compares with actual costs incurred. Provides accurate maintenance cost for rooms, venues, machines and other equipments.

Add those Finishing touches

Advantage WINHMS

WINHMS Leisure Management helps organise reservations for other in-house facilities like beauty salons, gym, pool, fleet and spas to name a few. Availability Charts, Usage Analysis and Utilisation Ratios lend an overview of the various facilities. The package supports efficient Billing including resettlement and cancellations.

Financial Extras

WINHMS Accounts Payable has a highly productive solution that helps maintain strong control to prevent duplicate payments. An automated payment advice is one of the features based on due date which prints cheques or bank advices. It expedites supplier payments by combining several bills on a single cheque or partial payment. It also lists accounts payable, cash flow, cash requirements and ageing analyses.

WINHMS Asset Tracking provides better control including the purchase, disposals, scrapping, transfer and sales of assets. It maintains asset location division-wise and helps flexible depreciation using various methods of calculation. It captures AMC, Origin and Insurance details and has a powerful reporting feature based on classification, grouping, type and location.

Information is Wealth

WINHMS Knowledge further equips front office staff with a powerful information base to handle pertinent queries from guests as well as trivia that go a long way in pampering to their every whim. It facilitates instant access to flight/ train timings, tour operators, tourist spots, cinema halls, shopping malls, and the like.

Rewards for the Loyalists

WINHMS Loyalty completely manages the membership data base of the various **Loyalty Promotional Programs** and caters to pampering the members through various innovative discount structures; tracks members spend patterns and analyses which initiatives were successful.
